WALK / CYCLE / DISCOVER

Follow the coastal roads to the Cape of Good Hope. Walk among fynbos, pause above a turquoise bay, or explore the peninsula by bicycle. National park landscapes and open ocean bring a sense of space to every day.

Guided nature walks and responsibly led foraging, where permitted, reveal the details you might otherwise miss.

Space to breathe.

Wide-open landscapes, turquoise bays and coastal journeys.

Discover the wild beauty of the southern Cape Peninsula.

Closer to nature.

Take the trail, follow a quiet road and pause for the view. Guided walks bring you closer to the landscapes around Scarborough, with time to notice the flowers, birds and changing light.

FYNBOS / BIRDLIFE / WIDE-OPEN SPACES

A slower pace reveals a different world.

Share the landscape.

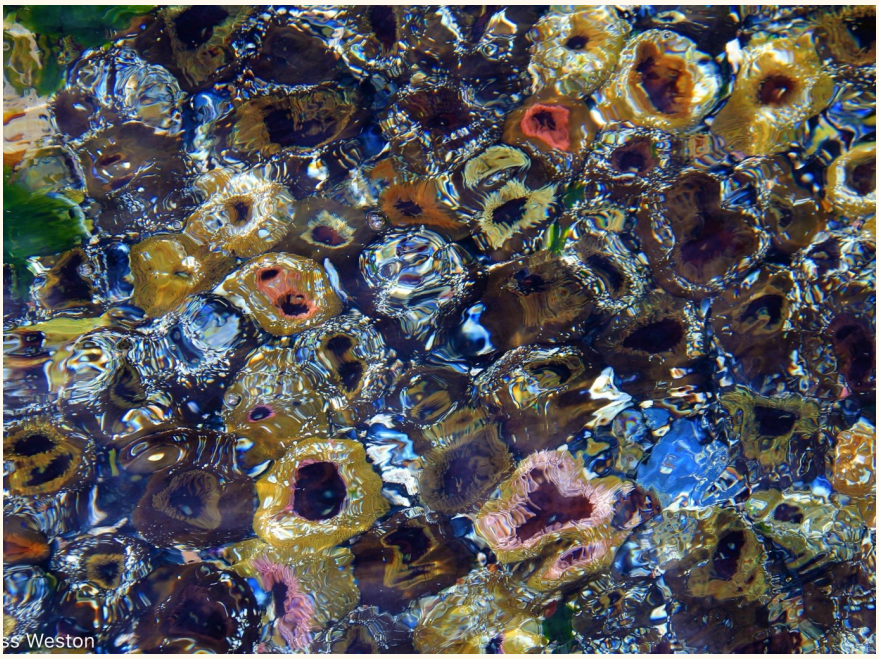

Beyond the beaches, discover another side of the peninsula. Look for wildlife on your explorations, linger over the smaller details and let each encounter unfold naturally.

Look a little closer.

FLOWERS / BIRDS / LIFE AT THE SHORE

A flash of colour among the fynbos. Flowers beside a trail. A miniature world in a rock pool. There is as much to discover in the small details as in the sweeping views.

Explore gently with a local guide, and leave plants and marine life where you find them.

A different horizon.

SAIL / FISH / WATCH

Make a day of the ocean.

Set sail on False Bay, head out on a deep-sea fishing trip or discover the coast from the water. Mountain backdrops, sea air and the possibility of seasonal whale sightings make every outing its own adventure.

Watch the water.

Dolphins breaking the surface and penguins at the water’s edge: the peninsula offers wonderful opportunities to watch marine wildlife. Bring your curiosity, your camera and time to linger.

Wildlife encounters are always on nature’s terms.

Barefoot, by the sea.

Wander Scarborough’s beautiful, largely unspoilt beach, or arrange surfing and kiteboarding lessons in the wider area. Follow the wind, the waves and your own sense of adventure.

A BOULDERS DAY OUT

Meet the locals.

Visit the African penguins at Boulders and enjoy a swim at the neighbouring beach. Penguins may pass nearby in the water; give them space and enjoy the moment.

Choose swimming spots with local advice.
Lessons depend on conditions and ability.
